

## Press release

Cadenazzo, 08/01/2008

### Essebifil Trading LLC NY, branch of Cadenazzo (Switzerland) introduces KD 5000 series air filter elements.

CADENAZZO/Switzerland (07.01.2008) – Essebifil Trading LLC NY, branch of Cadenazzo (Switzerland), today announced the launch of KD 5000 series, replacement air filters for trucks, buses and heavy duty Vehicles.

Filters are fully manufactured by Kojen® Filtre, a filter manufacturing company specialized to serve the power generation, automotive and industrial sectors as aftermarket supplier.

#### HIGHLIGHTS

Caps are made of electro galvanized steel and the perforated metal screen ensures a high mechanical strength.

Filtration is provided by high quality cellulose-based paper impregnated with special resins to achieve high filtration standards.

Air filters of the KD 5000 series are suitable for many brands, including DAF, MAN, VOLVO, SCANIA, IVECO, MERCEDES BENZ, RENAULT trucks and SETRA, MITSUBISHI, NEOPLAN buses. Moreover they provide high filtration performances for Heavy duties machines such as KOMATSU, LIEBHERR, JOHN DEERE and other major brands.

**KOJEN® Filtre** is a leading manufacturer of high quality air filters. In business since year 2000, the Edirne, Turkish-based company has been serving the power generation, automotive and industrial sectors as aftermarket supplier.

Kojen® Filtre products are available internationally exclusively through Essebifil Trading LLC, Branch of Cadenazzo (Switzerland).
