

Press release

Essebifil Trading introduces Mercedes Benz ACTROS and AXOR aftermarket air filter element.

CADENAZZO/Switzerland (11.03.2008) – Essebifil Trading LLC NY, branch of Cadenazzo (Switzerland), today announced the launch of **KD 7001**, a high performance replacement air filter element suitable for the medium and long haul MERCEDES BENZ Actros and Axor series trucks, which are fitted with filter number 0040942404, 0040942504, A0040942404, A0040942504.

Application

Actros II
Axor 4 / 03-->
Axor II

Highlights

NO METAL parts are used in KD7001 filter.

ALL plastic components are produced in-House by Kojen®.

End caps and Inner screen material: PP 20GF to ensure high mechanical resistance.

Gaskets: EPDM lip seal gasket for a perfect seal.

Media: Filtration is provided by high quality cellulose-based TURBOPAPER impregnated with acrylic resins to achieve high filtration standards, high dust holding capacity and low initial pressure drop.

Media stabilization: Pleat lock stabilization system to maintain uniform spacing between pleats
